Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

All you people are already rich enough, and yall are still trying to take more of people's money. Trac Fone's air time rates are all ready outrageous is coast, think about it, if one talks for 2 minutes and 3 seconds, that 3 seconds count's as 1 min. so there for it charges 3 whole minutes. For only talking 2 minutes and 3 seconds. You could at least give us the rest of that minute to talk. Weather its 1-dollar or 10 dollars, every little bit counts and that one-dollar is ridiculous. Nothing is ever enough; you still have to charge more money. So NO I DO NOT think it's fair to charge EVERYONE \$1.00 regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Jami VanIngen
